100% Done for You Plug 'n' Play Sales Funnel Means You Can Profit Starting Today... without Doing Everything Yourself and Struggling with the Technical 'Mumbo Jumbo'...

If you **love** the idea of selling your **OWN** product and becoming a **TOP** earning affiliate... but are **NOT** very 'techie' with computers and simply **DON'T** have the time to do **EVERYTHING** yourself... then read every word on this page carefully...

Click Here to Secure the Newbie Sales Machine

The information business is **HUGE** and has no signs of slowing down. If you're not capitalizing on this opportunity then you're seriously missing out.

As a valued customer we'd like to present you with a **very lucrative reseller opportunity** so you can start selling your own product like us within moments from now...

This is your chance to skip the expensive and laborious product creation costs, get licensing rights to a fully functional existing internet business... and start selling to your own customers... sell as many copies as you want... and keep 100% of the profits!

Listen, we know you're no stranger to the idea of making money online...

You've done a bit of research and seen the countless number of opportunities available to you... and your inbox is being flooded with tons of promotions asking you buy the latest and greatest shiny new object.

It seems like EVERYONE is some sort of guru... and has the answer for you... and quick to tell you what to do and what to buy!... One day it's Facebook... another day it's PPC traffic... another day it's some black hat SEO method... another day it's Instagram... the next dropshipping... I mean which one do you choose?... who can you trust?... and more importantly who's telling the truth?...

It all just seems so confusing and even if you do end up buying all those products... the **information overload** could leave you no better than when you first started!

The truth is that the only people who are making the REAL money online are the ones who are sending out those emails and making the sales.

Why else do you think they send out so many emails?...

Why else do you think they spend so much time making their websites look nice?...

It's because selling your own product simply works.

Don't get us wrong... Whilst there is value in educating yourself and using tools and software to simplify your business... you'll eventually realize that if you want to make money online then you need to start selling. Period.

But here's the problem why most people fail online...

“You NEED Time... some Serious Technical Skill and REAL Marketing Intelligence to Build a **Profitable Sales Funnel from Start to**

Finish..."

Note: If watched our recent webinar you'll know how much work that goes into creating a single product and how much time it took to learn these skills.

There's just so many things to think about... so many things to learn... so many things to get right.

There's sales video presentations... sales letter writing... image editing... website design... website coding... payment processors... digital content delivery systems... membership scripts... product positioning... customer testimonials... and upsells... just to name a few...

And we haven't even got round to actually creating the product yet!...

You still have to record hours of videos, edit them, render them, write reams of content for your eBooks, create a lead-capture form to build your list... write up a prospect email campaign to close sales... set up autoresponder automation rules and more...

And that's just setting up one product... let alone multiple products in a sales funnel!...

Yes you can spend hours watching tutorials, reading every report on the subject, learn the tools of the trade, play about with software all day long... but eventually you'll have to just DO IT and create a product that SELLS... day in... day out.

The reality is you may not get it right the first time round... You may not get it right the second time round... You might have to go through several trial and errors before you make your first sale.

And that's okay. It's just part of the process you need to go through to succeed.

But the questions you should be asking yourself are... *"How do I skip the trial and error process?"... "How do I create a product that's guaranteed to sell from day one?"... "How to I make a full time income online as quickly as possible without having to create dozens of products or a complicated sales funnel?..."*

Well thankfully that's why you're here on this page today...

We've Attracted 1 Million Visitors, Acquired 12,130 Customers & Sold Over \$321,199.32 Worth of Products and Services on JVZoo Alone!

This is YOUR Golden Opportunity to **Hook up with the BIG Players** in the Industry & Fully Integrate with our Proven Multi-Layered Sales Funnel!

	↕ Visitors	↕ Sales	↕ Conversions	↕ \$ Per Visitor	↕ \$ Per Sale	▲ Total
	926,483	12,130	1.31%	0.35	\$26.48	\$321,199.32
esell	75,581	1,779	2.35%	\$0.46	\$19.73	\$35,101.00
esell	2,059	463	22.49%	\$4.96	\$22.06	\$10,213.00

Whilst we've sold over \$320,000 worth products and services just through JVZoo... the more important question you should be asking is *"What does this have to do with me?"...*

Well when it comes to selling online, it's safe to say that we know what we're doing.

We're not here to brag, show off any flashy cars or big houses or to even sell a dream... You're smarter than that and we don't want to insult your intelligence...

We're here to do business and offer you a very lucrative reseller opportunity that not only allows you to sell your own product... but earn commissions on EVERY product and service we sell in EVERY sales funnel on EVERY network.

To make this even possible... you need to be sure of a few things...

...You need to work with people who have real marketing experience and know what they're doing.

...You need to work with people who can build websites that SELL! - VERY

important.

...You need to work with people who **plan to be in business** for years to come!

Yes you can go it alone... But guess what. It's a difficult path.

There's a tremendous amount of work that goes on in the background to make a site sell....

There's a tremendous amount of UNSEEN and under-appreciated focus and energy needed to complete a project through to the end...

There's even tremendous sacrifices you'll need to make your personal life to make this business work.

And to be honest... internet marketing is NOT for everyone.

However there are legitimate shortcuts you can take **RIGHT NOW** that will cut the learning curve, reduce development time and cut costs massively to make everything explained above even possible!

Get Details Here: <https://www.supersalesmachine.com?hop=wizesol13>

You get your own professionally created membership product to sell. You'll be selling Standard Membership Access for just \$19.95 which gives your members access to over 380+ training videos. Once downloaded, you can slap on your payment button, connect it to your reseller link and sell forever. Every sale is yours to keep.

Why training videos? Because they sell themselves. If you're reading this now then it's likely that you've purchased training products before. You are living proof that these types of products do indeed sell. But this time YOU become the seller and keep 100% of the profits for life.

High Converting Upsell System

You get your own high converting upsell system. As soon as your customer has decided to make a purchase, our system will redirect them to an upsell for advance training videos for \$37. A well thought out and designed upsell requires an irresistible front-end offer that positions the upsell as a 'must have too'.

The best part is it's all done for you! No need to design an upsell from scratch. No need to think about what words to write. No need to create the content. No need to test different price points. Just continue to sell copies of your membership product and you'll see an

instant boost in sales.

Powerful Lead Magnet System

The money is truly in the list. A powerful lead magnet system attracts visitors, creates interest in your free offer, gets them to subscribe and converts them into buyers. With your sales machine you'll be sending traffic to a highly optimized mobile-responsive squeeze page, give away free training and follow up with your leads for several months.

No need to design a squeeze page from scratch, no need to create give-away content and no need to write enticing emails that convince subscribers to buy. With Newbie Sales Machine it's all done for you.

50x Email Lead Converter

Email marketing is all about connecting to your readers, offering tremendous value for free and converting your subscribers into raving fans who love receiving emails and

continue to buy from you again and again. This is how long term income is built - through quality products and a loyal fanbase.

With Newbie Sales Machine we've done 99% of the work for you. Let the system build your list for you, connect with your readers and convert them into buyers so you can spend more time promoting your offer and less time stuck with the creative stuff! We've added 50 follow-up emails to your package that will do the job! Just add traffic!

Reseller Profit Link Generator

With Newbie Sales Machine you receive your own unique reseller links to provide membership access for your customers. This link acts as your access link for Standard and Pro Membership Access and tags your customers with your ClickBank, JVZoo and Zaxaa ID as they enter the membership. Any products or services your customers purchases now or in the near future ensures you get credited for the sale without doing anything else!

We've made it super easy to create your reseller link. Just fill in your profile with your IDs and generate your reseller links with one click. It's that easy!

One-Click PayPal Button Generator

Time is money and when you want to get setup fast you need time-saving tools like our a one-click PayPal button generator.

Simply add your PayPal email into your profile and generate your payment links with one click. We'll host your payment button for you and redirect your customers through to your reseller link which will then send them through to the members area. More speed, less time setup, more time making sales!

Optionally if you want to create your own buttons and use a different network it's no problem either. Just link to your reseller link and you'll get full integration with our backend system.

HOT! Back-End Sales Generator

A typical affiliate program only lets you earn commission on one product plus a few upsells. Great if you're starting out but not so great if you're serious about building a long term 6-figure per year online business.

We really pushed the boat out on this one to ensure you get credited for every product, not just in our sales funnel, but on every network we ever sell on including ClickBank,

JVZoo and Zaxaa.

We've strategically placed behaviour-based login upsells, upgrade buttons, text links and randomized testimonials throughout the membership to encourage your members to upgrade. Due to the amount of content in the members area, your members are guaranteed to log back in on a regular basis and be presented with upgrades every time. This is the core feature of the Newbie Sales Machine and gives you the ability to earn BIG passive commissions without lifting a finger!

HOT! Future Launch Sales

Okay so now you're selling a quality membership product of your own, offering upsells, tagging customers with your reseller link, integrating with our backend offers on every network and getting commissioned automatically... how else can we improve the system?

Thanks to the tagging system we've developed, you'll be able to earn even more commissions on new products we develop in the future. This includes evergreen webinar events, turn-key systems, monthly training programs and more. Every customer you send through the system has the opportunity to spend thousands of dollars with us through your referral links.

Whilst you're busy selling membership access to Newbie Lessons, we'll be busy in the background developing high ticket offers and promoting them to your customers to boost your earnings. Talk about a partnership!

Expert Postitioning System

A truly great product will sell itself even if the reseller doesn't know the details of the product. And this is EXACTLY what we've built. A product that sells itself no matter is selling it.

Whether you've just started your online business and looking for a worthwhile investment, or have been in the game for years and just want to add another product to your portfolio, Newbie Sales Machine will position YOU as an authoritative expert.

With Newbie Sales Machine you'll be delivering so much content upfront, we're absolutely convinced that that a simple banner on your blog or a text link in your forum signature, or watermark on your video or a call to action on your free reports will attract the right people and get them to buy. Any newbie who is serious about learning internet marketing will jump on your offer right away... afterall you've offering 380+ training videos for peanuts!

**“100% Done For You Membership Means You
Get Started within 5 Minutes from NOW!...
Not in 6 Months... or 1 Year From Now!”**

**Newbie Sales Machine is a Purposely-Built,
Evergreen Membership Site with **FREE**
Upgrades for Life to Give You UNLIMITED
Profit Potential!...**

Master menu allows members to update their profile, keep track of their purchases, get support and log in and out of the membership. Because all purchases and content are locked into the membership, refund rates are low which protects your commissions!

Testimonials are displayed to members every time they watch a video. This adds a social feel to the members area and encourages your members to upgrade and purchase more products and services through your referral link.

Newbie Lessons

Lesson 10 - Create Signup Form

RE: What is your dream?

It's okay to dream big, to aspire to
want more.

It's perfectly natural and you deserve
it.

In fact the reason you're even reading
this email is because you made a
decision some time ago that you want to
make money online... to ultimately live
a better life.

But here's where most lose themselves...

They don't know how to approach a BIG
dream and break it down into small
manageable tasks that can be measured.

If your goal is to make "one million
dollars online" or to "quit your day
job and go full time online" then you
need a plan that will help you get
there.

A "Winning Mindset" is Your Strongest Weapon!

Let me start by asking you a very serious question. "Do you

expect to win or lose?"

Pretty simple question one would think isn't it? Stop and think about it for just a second and come up with your answer.

I find that the language many of my students really are speaking suggests that when faced with an opportunity of any description, they don't expect to win. Therefore, by default, they are setting themselves up to lose.

Here is an example of what I hear when I start one of my first coaching calls with students that just bought one of my products, or a competitor's product I may have recommended: "Well, we will see how this product does for me. The last thing I did didn't get me any results at all, so I am hoping that I am not getting myself in the same situation."

Does this sound like someone that really is ready to do whatever it takes to make this new product really work? Or does it suggest they really do not expect any different result than what they experienced with the last product?

Why New Products Fail

If your product fails to sell then your product differentiation and your positioning of the product are very weak.

I'll tell you right now. There's nothing worse than sinking 6 or 12 months into creating a product that no one wants to buy. I've done it before. And it stinks. It 100% stinks.

If you are not going to take the time to do proper research to ensure that your product is positioned well in the minds of your target market you are just plain and simple going to fail. Unless you really get lucky!

Most people are in such a big hurry to get their product out to the marketplace that they don't even stop to think about it making sense to their targeted market.

I mean you have a great product that makes total sense to you that you just spent a ton of time creating. Why wouldn't it make sense to the person that show up? Why won't they see the same thing you see?

It is pretty simple. It is not positioned in the right place for their mind to see the same thing you are seeing.

“Let's Do Some Quick Maths... is \$100k a Year Online Even Possible for the Average Joe Who Sells One Product?”

Not only are you selling your own product, but you're fully integrating with our sales funnels on every network that we sell on. Honestly... how often can you say that? This is your piggy back to a \$100k per year income.

And if you're wondering if \$100k a year is even possible...

Well let's look at it from this angle. What does it take to earn \$100,000 per year?

With a quick calculation it's simply **\$273.97 a day**...

\$273.97 a day is **14 Standard Membership** sales at **\$19.95**... or **8 Pro Membership** sales at **\$37**.

Now factor in the upgrades that convert at 20% and you'll only need to make **7 Standard Membership** sales a day or **5 Pro Memberships** sales a day to meet (even surpass) your daily target...

7 Standard Memberships / day = $7 \times \$19.95 = \139.65
plus 1 upgrading members who purchases all upsells = \$145.50
Total = \$285.15/day

5 Pro Memberships / day = $5 \times \$37 = \185
plus 1 upgrading member who purchases all upsells = \$145.50
Total = \$330.50/day

What looks like an ordinary product that sells for \$19.95 can actually be turned into a job-quitting income!

Becoming a 6-figure marketer is actually easier than you think.

And even if you don't make **\$100k a year** from this one system but end up making **\$50k a year**... maybe **\$30k**... or a side-income of **\$10k**... *wouldn't it still be worth it?*

What if the best you could do is just make ONE sale a day at \$19.95 (*without any upsells or any of the funnel fusion tech*)... wouldn't **\$598.50 a month** make a noticeable dent in your expenses?...

Wouldn't it put you in a better position than where you are now?...

Wouldn't it be nice to finally say "I can finally make money online"... after spending so much time figuring everything out for yourself and getting nowhere... and finally being able to prove to your spouse, family and friends that you know what you're doing?

Just think how long the average person takes to make their first sale online... some take **YEARS** to do so... the majority **DON'T** make a single cent... because there's too many obstacles in the way.

This doesn't have to be you. You can turn things around very quickly starting now. Everything is given to you on a silver platter...

The real question is not CAN you... but **WILL** you?

But Don't Take Our Word for It!... See How the Newbie Sales Machine Has Helped People Like YOU Get Started Online... and Make Sales!

“No one else is doing what you're doing. You are the DIAMOND among the rough! Absolutely the BEST service on the market... I highly recommend it.”

Hi Aaron, it's Dave Lovelace I just wanted to send you a personal video testimony instead of something just written down just to show you the excitement I have for this site. I'm really blown away by what you're providing and I can tell you that I have seen the others.

I make a good portion of income online from purchasing licenses from resale rights products. There are others that offer that service. I can tell you right now hands down **you are the diamond among the rough, there's a lot of rough out there let me tell you.**

I found your site by accident actually, the first time I saw it I thought... **"who is this guy and what is he giving us here"** and I just couldn't believe. It's one of those things that make me say this is too good to be true and sometimes when you say that to yourself you find yourself blown away because you doubt what you're seeing because no one else is doing what you're doing.

You're really delivering so much more value than anybody else on the marketplace right now for resale rights. You are saving me so much time, when time is money, you're making me money if that's the case because I used to spend so much time having to set up these sites link and put them together before ever get them uploaded.

In fact I didn't realize you were doing this until I actually downloaded it you know the first product where you have a link and structured all the files together so the way I downloaded is the way I can upload it and be done there's no extra work involved. I couldn't believe that because normally you know sometimes when I buy resell rights products I don't even get so much as a download page but the quality of your design not only the sales page and the graphics and the download page you give us an affiliate page... who does that? **You're making me money by giving me those tools** because now I can get affiliates who are also looking for quality products to promote, set it up in my affiliate program and the tools are there instantly done there's no extra work I don't have to spend hours putting it together.

Here's the other thing I can spend an hour maybe writing an email or solo ad or something from my autoresponder series that promote the product you're giving me that I couldn't believe that... nobody does this... nobody does this... so **you're saving me hours of time and giving me the highest quality products on the marketplace right now** that I can sell in the internet marketing niche. So listen I'll leave it at that I want to go too long but I just wanted to send this personal testimony via video to let you know how excited and pleased and satisfied I am about this service absolutely the best resale right service in the market I highly recommend it!

- **Dave Lovelace**

"I wanted to say thankyou Aaron... Your latest product brought me over 2000% ROI! Looking forward to your next release..."

This is Marian from MariansWeb.com. I just want to say thank you Aaron for your wonderful stuff and **the latest product I bought from you Newbie Sales Machine brought me over 2000% ROI!** So thank you for that and I'm looking forward to your next release, thanks a lot!

“I got sales... including upsells... It paid for the system! Now I'm just looking forward to the passive residual income on the backend...”

Hi Steven Pope here, first off, I want to let you know the obvious if I am making a testimonial or if I am making a product recommendation as an online marketer I am making a commission most likely or some other form of compensation so I just want to be honest and upfront about it thank you.

So, in the money-making online or make money online market there are many products, but the Newbie Sales Machine is good for you in my opinion because it has an excellent front end product. That front end product is Newbie Lessons. So, there's over 300 videos helping newbies to run their internet marketing business and make money online and it could be good even for intermediate or advanced marketers because let's face it, sometimes we run into a problem and it throws us off a bit and so we can use all the help we can get.

The product Newbie Lessons is \$19.95 up front for these videos and then there's an upgrade to \$37... that's \$37 all together including the \$19.95 and it has traffic techniques in that upsell. So for \$37 your customer gets a lifetime membership to how-to videos and internet marketing instruction including traffic techniques that can help them. So, when you buy Newbie Sales Machine you also get a copy of these memberships and all hosting is done by Aaron and his associates so, you don't have to worry about the videos taking up too much space or the traffic because they're handling that end of it. **Now I myself found the membership very informative and will be referring to it frequently and I think it's a product you can be proud of that you don't have to be ashamed to be marketing.**

Now the good thing about it too is on the back end you can earn commissions from Clickbank, JVZoo and others and this is completely passive on your part because emails are sent to them automatically, not from you but from Aaron and his associates promoting products. **So in a way it's a win-win-win situation.** It's a win for you because you earn commissions, product sales on the front end and also the customer gets good value for his money and obviously Aaron and his associates are making money promoting their products as well... which become your products because you're making commission on the back end. So for the passive residual nature of this this is why I bought it and I suggest you do the same because I found it was an excellent product.

And the other thing too you might wonder what results have you had well I had a list of several hundred subscribers most of which were not customers and I had neglected that list but, I decided I was going to send the for broadcast emails that were supplied and I sent them I got a couple of unsubscribes... serves me right for neglecting my list... **but I got sales as well including upsells and so it paid for the system!** So now I'm just looking forward to the passive residual income on the back end.

My strategy will be to promote the product so that Aaron and his associates can promote on the backend and earn me commissions as well so, I thought it was an excellent product for the money and I have no hesitation in recommending it to you. **It's low-cost, it's inexpensive I believe very good value for the money and you don't really have much upfront investment or much to lose.** The only thing you're going to need to do is obviously promote your website. You'll have to upload the website, you'll have to connect your PayPal button and basically then it's residual passive income on the back end so as

long as you do something and promote this product then you should be able to make some money.

- J. Steven Pope

“Take your business to a whole new level that you can really be proud of! Thanks to Aaron and the team for putting up a product like this...”

Hi guys, my name is Rodney and initially I didn't even know of this product that's what I'm going to give a testimony today meaning the Newbie Sales Machine of course. It's only after being contacted by a cousin of mine that I actually got access to the sales pitch. Now what completely blew me away was the fact that when I first came online I spent literal hours looking for stuff like this how to integrate Paypal how to set up warrior plus, how to set up JVZoo, CSS style sheets and stuff like that, how to integrate PayPal into a sales page, how to set up autoresponders and the best part is you can get all of that by getting access again to the Newbie Sales Machine.

...So here's the thing, I made a big mistake in March 2016 really when I first tried to put up my first product when I had integrated my product into Warrior Plus. I didn't know what I was doing so I made some technical mistakes and I literally saw hundreds of payments come into my PayPal account I was refunding back three persons obviously because I

didn't have it right. The PayPal payments were coming into my account. I saw the PayPal notifications but, they were being refunded back to persons. So you can imagine I literally sat and cried for hours but I've since then going on of course to launch successful products.

If you're new to online marketing or even if you're advanced and struggling to build a real sustainable internet marketing business then I have some incredible news for you. **This is a proven system to help you build your online business today... not tomorrow... not next week... today!** Using this brand new newbie friendly academy. If you have ever wished you could finally have online business like the internet marketing one percentages... you know those guys who do affiliate marketing and product creation and it seems as if everything goes right for them they make hundreds of thousands of dollars sometimes per week, per month, per year, because their systems are so streamlined... I want you to join with me if you've ever wished you could run your business like that.

If you've wasted hundreds on me money online newbie systems and trainings that simply don't deliver... felt that there is something that the gurus know about making money online that you don't and we all feel sometimes overwhelmed because you are trying to do this... you are trying to do that... you're looking here... you're searching there... and at the end of the day sometimes you don't even have this system put together. You spent two days trying to put together this perfect squeeze page... and at the end of the day certain things are missing because you spent so much time searching then you're overwhelmed and confused and wonder whether you are ever going to get anything right this with this whole make money online thing.

Believe me I know how you feel. I was once the same and you see it got to a point where I was sick of being one of the guys who knew he could make money online. I knew within myself that I can make money online. I knew that I could do this but just couldn't get all the dots connected so I decided to take a stand today. I want you to take a stand with me and get your hands on the Newbie Sales Machine and take your business to a whole new level that you can really be proud of. And finally I want to say thanks to Aaron and the team for putting up a product like this that I am sure will continue to help me and can help you, thanks.

- Rodney Yarde

“I'm really impressed with the level of the service, expertise, patience, concern, care and effort they have shown me...”

I've been with Aaron for nearly 3 years. My first impression leaves a lasting impression. All his graphic design and sales page are built in with attractive characters and always had an appearance of being bright and cheerful.

I like set up service and he's always prompt with any question asked. As quickly as possible he's showed that he and his teammates aren't only dedicated to sales but also to after sales service. He's also very helpful to see our success in business.

The Super Sales Machine team is one of the different kind from other network marketing online. **They delivered more value than the advertised** and follow up with perfect customer support. I'm really impressed with the level of the service, expertise, patience, concern, care and effort they have shown me. **I definitely will recommend them without any reservation!**

- Dickie Lim

“I didn't know anything about HTML anything like that... I've been online for about 15 years. This really, REALLY me helped out. I recommend it. ”

I just wanted to give a big shout out to the Newbie Sales Machine. A while back when I got started with a couple things... I had purchased a product they offered the install which was great at the time for me because **I didn't know anything about HTML anything like that.** I've been online for about 15 years. This really, really me helped out. I recommend it.

The admin area is very easy to use... I mean you just get back here you click into it... it's not hard to get your links nothing like that. The price point... the price that you pay... I'm telling you right now even if you paid say \$200 you get an internet marketing business in a box pretty much all set up and done for you... I just can't stress any more... a \$200 sounds like a lot but you know what I had somebody tell me the other day you need to learn outsource things, quit leaving all the technical stuff up to yourself and focus on what you need to focus on... because if they get it set up then you need to drive traffic to it so you could be focusing on driving traffic... which is what that's helped me do... it's helped me get a list, yeah I don't have the billionaire list here okay... you know millions of millions of people... but you know just a little bit of people help.

I totally recommend buying their product, buying the install service you cannot go wrong. The price point is cheap... I don't know anybody else out there offering anything that cheap... especially the back end of it is so easy to use that's the big thing because all you want to do is be able to grab your links and run with them.

Anytime you can grab their install or any other products get it up get the links the back office is easy to use... all you got to do is worry about driving traffic to the links so you have a plan. That's why they're installing it... which only takes a couple days. Aaron had that thing set up for me pretty quick. I mean it was just it was just like BAM... before I know... I was like "oh you guys are done already".

My name is Josh Shoemaker from JoshShoemaker.com so I highly recommend Aaron Danker and his stuff that they have on in the Newbie Sales Machine and things like that. And it's easy to add new products to the front-end and get them to install more so once you got a strategy working... use it... and you know move forward. So anyhow peace out god bless you all. Grab the Newbie Sales Machine.

“Sent my first 100 clicks and made my FIRST sale! ...Been implementing these tactics on the hispanic market and it's working and I'm getting sales! Very SIMPLE very EASY... Just promote promote promote!”

Hi, my name is Raul. I've been doing marketing online for about 4 years already and my main focus is on expanding my promotions. When I was trying to move to my market to the English market I was struggling a lot, I was searching everywhere to try to find out a product on my own and I came across the Super Sales Machine.

They have very good products. I've been buying products from them probably for over a year and two weeks ago I bought the Newbie Sales Machine product which is really great. **I sent my first 100 clicks and got my first sales which is great.**

One of the benefits of these products is that every time you get the products you can run it and learn all the tactics and tricks that you can do and let me tell you I've been implementing this tactic on the Hispanic market and it's working. I'm getting sales and their product setup service takes only 72 hours to install everything for you and only thing you have to do is to promote, promote and promote.

It's so easy just to copy paste the URLs that I think anybody can do it so it's really simple,

really easy to do, and it is a lot of potential to do business. Now I want to say thank you Aaron, thank you for the Super Sales Machine products and I only expect your emails to learn more. Thank you.

- Raul Molina

“I've been a full-time internet marketer for 5 years... some of my early sales came from Aaron. I have had great success with this program and have made sales. I highly recommend it. Buy it, load it up and start driving traffic to it.”

Hi my name is Mike Randall. I've been a full-time internet marketer for 5 years and in those 5 years I've been buying products from Aaron Danker. Some of the first products I bought were Resell Rights Ninja with 10 products setup on my PC with buy buttons. **Some of my early item sales came from this program. All of Aaron's products are very professional with high-grade graphics.**

I have had great success with that membership program and have made sales on it so when Aaron introduce Newbie Sales Machine I jumped on the offer right away which came in at a very low price for setting it up myself. I've got experience so I didn't need

Aaron's setup service so, I set it up myself even a newbie could set this program up... it really is that easy it took me one afternoon to completely set it up including the 50 emails that came with the program.

I would highly recommend the Newbie Sales Machine, buy it, loaded up one day and start driving traffic to it. Ever since I started buying Aaron Danker's products, my online business has been moving in an upward path of success, thank you.

- Mike Randell

“I have been online for some years and have not made sales... this is my FIRST sales online! I am really, really, really happy!”

My name is Ibrahim and now my website is BusinessMagnetics.com. I saw the program for the Super Sales Machine and it was wonderful so I decided to invest in it and I'm glad to say I have no regrets. The installation setup was done for me because I don't have technical know-how so it was done quickly by support and I have no hesitation to recommend them.

I've made money with the Super Sales Machine, in fact two sales that was my first sales online and I was happy when I saw the email from PayPal. Two sales within a week so I hope to add more.. just trying to build in my list.

I have been online for some years and have not made sales, I've tried drop shipping, I have tried Forex, Forex market, making money from Forex from binary options and I've tried other website applications not really made anything to be absolutely correct not a single dollar... so this is my first sales online!

I am really, really, really quite happy! In fact very happy I should say and would highly recommend the Super Sales Machine websites reseller program - everybody should give it a try. I plan to expand my products from the website and to increase my list building so that my business can grow... that is my intention.

Kudos to the team - to Aaron and his colleagues in the Super Sales Machine. I am more confident now going online with internet marketing I was getting discouraged initially before I found the Super Sales Machine and now I am going to renew my drive and my enthusiasm is on the increase. I am really, really happy. I once again congratulations to the Super Sales Machine team, thank you.

**“I couldn't have created a site like this...
It would have taken a lot of time a lot of
money and a whole lot of assistance...”**

Dr. Jay Thomas smith here from SuccessIMS.com back again to tell you about my friends at Super Sales Machine. We're good friends now, they've got a new program called

Newbie Sales Machine. Now you can build your own monthly web site where you have recurring income with your very own multimedia training membership sites.

I'm excited about it because they got it up and running for me to no less than 72 hours. That's right, they're fast with this thing they really get it going for you and when you see it you're gonna be as excited about it as I was.

Now by again my first impression, again first impressions are very important when you see it all the various topics that you have numerous programs are numerous monthly offerings that you can have for your customers from your very own website. As I stated it was easy or fast for them to install but once you get to the portal the administrative portal it's very easy to navigate.

Now obviously, I say it's obvious to me I couldn't have created a site like this... It would have taken a lot of time a lot of money and a whole lot of assistance but with the Newbie Sales Machine if you're a newbie, this is the program for you. The Newbie Sales Machine gets you up and going quickly and it cost very little \$97 and let me tell you is well worth the price to get your own membership site up and running in a very short time.

Now I would recommend this to you because if it wouldn't work for me there's no way I'd be telling you that you should try it. In fact if it wasn't a good program I wouldn't even be talking about it at all. They've got a money-back guarantee get into it let them set it up for you if you don't like it they'll give you your money back. You can't beat that. With the Newbie Sales Machine I really feel great about the commissions and the recurring monthly income. I think I have a prosperous future with Newbie Sales Machine. I'll see you at the top of internet marketing mountain you have a successful day!

- Dr. J. Thomas Smith

“I've seen other people's pages... this looks absolutely professional.... I'm very confident because this is just a QUALITY product... this is just an absolute STEAL!”

G'day my name's Paul Cummings from Sydney Australia and I just recently purchased the NewbieSales Machine through Aaron. It look's fantastic, I don't have a lot of experience online so I'm looking for some sort of system that can give me a good kick start. I have tried to set my own things up another a little bit of success setting things up but they never quite look the way I would like them to look and look the way I've seen other people's pages look so this looks absolutely professional quality, quality, quality all down the line.

So the installation was done within a couple of days, **I'll be honest the price was, I thought ridiculous it was too low** and I thought well it can't be as good as I can't get what they're advertising for that sort of a price but it said 60 days money-back guarantee so I thought well I'll keep it a try, if it doesn't look any good it's not really up to scratch I would just ask my money back.

Well I've been blown away. It's absolutely quality and it was setup within a couple of days ... and I don't think it was even two days and everything works well... very helpful... good communications and it's great value for money.

The admin system is very easy to navigate and very easy to use and it's way exceeded my expectation the whole setup. I have tried to do my own things that I said and I've tried to purchasing products from other people with limited success... but there always seems to be a snag or an element missing from what I would like with the process of the setup but this is just perfect.

It's got a lead capture page for capturing email addresses... now I'll be honest I've only just purchased it it's brand new off the press for me. I've just started for a day or so and I'm just trying to put into place some marketing to drive some traffic some short-term and some long term setups that I'm doing so, I can't tell how's going yet but I'm very confident because this is just a quality product... it's just quality and Aaron has built in lots of other ways to make money within it, within the process which I'm looking forward to as well the affiliate marketing that's involved with what people will be offered above and beyond what I've already got there.

It's worth the price I paid I would recommend it to people and especially if you're someone was thinking of trying to set up your own system... **unless you have got a lot of money... a lot of money you will not set up something like this yourself** and you've got to have the technical know-how so if you waver in any way on the technical know-how, if you waver in any way on having the money to do it, **this is just an absolute steal... an absolute steal.** So, I'm looking forward to the future being very rosey and what it can provide for me

so I hope that's helpful to people and I recommend it highly. Take care, bye for now.

- Paul Cummings

“My product was installed in 2 days and I started making my FIRST SALES 2 days after that! I came to realize this is something UNQIUE and difference... I snapped it up immediately. I've NEVER seen anything like this and I'm very very honoured to be part of this system”

Hi this is Kerry Mackey with IMProductsToGo.com I want to give my testimonial on Aaron's Newbie Sales Machine. I have to admit when I first was reading the sales letter I was like... **"this another new resale rights product Aaron was releasing"**... I bought several of those resale right products and as I went further down the sales page... **I came to realize this is something unique and different**, because with the Newbie Sales Machine, not only can I be a list builder make front end sales but I'm also able to make sales on the back end through Aaron's marketing. And soon as I realized what this was, I snapped it up immediately... paid \$97 for the installation. **My product was installed in 2 days and I started making my first sales 2 days after that...** and I see myself making several

affiliate sales in the back end from Aaron's marketing for months to come!

So I recommend this product to newbies and professional marketers as well because, everyone can benefit from this system. So, if you're a newbie you can get off to a very fast start because you're instantly **a list builder... a product owner...** and it can also make you **a super affiliate** through the back end from again from Aaron's marketing. **I've never seen anything like this and I'm very, very honored to be part of this system.** So, if you have the opportunity I would snap it up and we'll see you guys out there on the net, goodbye from now.

- Terry Mackey

Here's the thing... you don't have time to create your own internet business from scratch... Because if you did, it would be done by now and turning a profit.

...And even if you did manage to find the time, there's NO guarantee it will work first time... second time... third time round. In fact you may have to go through **10 revisions** or **MORE** just to get ONE element to work... let alone make a sale!

Just think how much you've already spent on training products, software, memberships, and coaching programs amongst other things... No doubt you've learned a thing or two... but seriously how better off are you?... The truth is you STILL have to build your business and SELL something.

What we've done is created a **DONE FOR YOU** solution that can get you up and running within **literally minutes from now**... not weeks... months... even years!

Listen... we know what it's like to build a product from scratch. We know who to hire... what prices to pay... what timeframes to work with... and what work not to outsource. **It's not easy and involves HARD WORK**... the type of work that many simply CAN'T do and WON'T do. Why else do you think the success rate is so low?

**“In total \$2,839.80 PROFIT! Fully
installed, done and dusted... Just a
fantastic offer! Buy anything that Aaron**

Sells... Just a PHENOMENAL deal!”

Hi Aaron and everybody at Super Sales Machine, it's Randy and Simon here at Media Kettle. What a site fantastic site for anybody hasn't seen it. I mean there is just so much and all these amazing videos here we're going through just help... in terms of basically having a complete reference library for anything you want to quickly look up and check. I love the Google Tools ones with the Gmail settings and labels and the tabs and the filters... it's fantastic for organizing your Gmail. Simon like some of these techy ones.. .but anyway that's the site you already know what's on the site because you sold us it and then there's the upsell obviously with the traffic upgrade and all the various videos in there with all the different modules and videos in there and all the rest of it.

Cracking site and we already have purchased a lot your products Aaron and the reason is quite simple your sales pages are fantastic mate... you must spend fortunes on them. We've even had some products where we've already got the PLR rights to the products but the sales pages were awful and then we notice you selling them... **so we paid you purely for the sales page** so we can use that sales page because we get more sales with it.

But coming back to the Newbie Lessons, what we love about it is your whole Super Sales Machine setup is great. You just log into the product and you give us all the pages the signup page to build subscribers with, sales pages, scarcity pages, upsell pages, download pages, everything supplied even down to the email copy. Obviously like anybody we would recommend as you always do to add a little bit of yourself into the email copy but you everything's provided makes it nice and simple.

So let's talk about results and why we bought and invested in this package. Cracking investment. We took the package where you set everything up for us and the reason we like that is because we're very busy as you're probably aware Aaron you've used some of our tools we develop the Monkey Web Apps that promote ourselves... Media Kettles of the

coders behind it so we're very busy these days all with coding... Simon is... I'm trying to do the marketing side of things. Doing the coding we don't really have much of an opportunity to develop some information products and videos etc. so it's one of the reasons we buy from yourself and the other main one I've already mentioned your sales pages are just phenomenal... the follow-ups you create everything else it makes it easy to make a profit from.

So in terms of this particular purchase the Newbie Lessons we purchased it on the 20th and by the 22nd Jeffrey had it all installed for us. Admin was easier to navigate. Did it meet our expectations?... It went above and beyond the expectations. Have we bought all the systems like this before?... Yes from yourself Aaron because it's a cracking system. Could we have created it ourselves?... Yes. Could we have had it created, installed up and running in 2 days?... Not a cat in hell's chance and it would have took us months and months and months and that's using outsources because also we two do it ourselves. Are we building our list?... Yes. We've been in business full-time for a quite a while now and so we've got a list we do market to that list.

Is this system that we've purchased from yourself making us money? It worth the price? Let me show you, let me show you some results. So in terms of item number Newbie Lessons we've promoted that and as you can see here is my PayPal label. **20 sales at \$19.95 so it's \$399** there but the way you've got this it's beautiful. I love it. If people take the upsell it includes the front end... so as you can see we've got 51 upsells which basically is the front end and the upsells. **20 plus 51 there so you've got 71 front-end sales and then plus 51 OTOs. The OTO payments \$37, \$399 plus another \$1,887 on the OTO.**

As you can see as I say we had it installed by the 22nd which was weekend, I think Friday so, we left it till the Monday before we start promoting it and the sales continually coming in as you can see right the way through to Saturday. But on top of the \$1,887 there because the way you have it and again another reason why we like to buy your products is for this ClickBank...

We've also got commissions from Zaxaa and we've got commissions from JVZoo, as well as the ClickBank commissions. In total and through all of those there is another \$553.80 in commissions there so in total were looking at \$2,839.80 profit and subtract what we paid for the actual product fully installed done and dusted... nothing for us to do literally just give you the money... give you our details... Jeffrey cracked on 2 days later it's all installed.

Lots of profit lots of simplicity... I don't like technical stuff Simon handles that but he's too busy coding as I mentioned so it's just a fantastic offer as far as we're concerned. if anybody's out there think about it... buy anything that Aaron sells and one of the reasons for doing this testimonial is to keep in with him so that I can actually give him a shout and say tell us before you even put it on the market or I'll just give you some money just send me what you've got coming out next.

So yeah definitely highly recommended love the stuff nice and easy to use all the tools that you want are on their... trainings in there it's just a phenomenal deal every time we buy which is why we've bought quite a few things from you. So keep up the good work Aaron

thanks again Randy signing out. Cheers now bye bye.

- Randy Smith & Simon (Media Kettle Ltd.)

“I was very impressed with the **HIGH QUALITY of the graphics... Could not recommend them enough to anyone and I will be back for more myself, so thanks guys!”**

I was very impressed with the HIGH QUALITY of the graphics and I am sure that anyone considering to buy will be pleased they did as even just having the graphics gives me inspiration to come up with many designs of my own and could not recommend them enough to anyone and I will be back for more myself, so thanks guys! - Albert F A Matthews

“I cannot believe how fast they set up everything and the customer support is off the hook!... I now have products I can sell as my own and profit 100%!”

I just purchased the Super Sales machine products and set up service this afternoon. A few hours later I received my Admin information and set up was complete! I cannot believe how fast they set up everything and the customer support is off the hook! The Admin Dash board is so easy and super professional and all is set up on my own domain! I can't wait to start driving traffic and making sales with my new professional Super Sales machine! I now have products I can sell as my own and profit 100%! I 100% recommend this service to anyone looking to make money online with digital products and want everything done for you super fast! Thanks Aaron! - Shane Purcell

“I am extremely impressed to say the least.... It was more than I could have

imagined!”

I had been looking to start my online business but looking at hiring someone to do my pages was a daunting task just to think about. Then I came across Aaron's information and I am extremely impressed to say the least. It was more than I could have imagined once I purchased and I am more than happy that I found this program. I can't say enough about it. - Elexis Wilson

“I've been with Aaron for nearly 6 years now!... His set-up service has always been prompt with any questions being answered as quickly as possible!”

I've been with Aaron for nearly 6 years now. The first impression leaves a lasting impression. Aaron's graphics on sales pages etc... have always had the appearance of being bright and cheerful. They have always made me feel that I can trust his offers even if I have been unable to purchase a product at the time. This isn't the first product I have purchased. I purchased several from Aaron in the past and I haven't had any issues with them. Plus they have the same happy and 'feel good' graphics that he himself uses. His set-up service has always been prompt with any questions being answered as quickly as possible which shows that he and his colleagues aren't only dedicated to sales but also to after sales service. I have dealt with a lot of marketers and Aaron would be at the top of the list by showing appreciation to me by keeping in touch with me by sending me the occasional free gift and keeping me and I would imagine everyone he deals with 'in the loop' with up to date products. Unfortunately, a large number of marketers only make contact when they wish to make a sale. I would be very surprised if both newbies and experienced marketers alike couldn't learn from or gain satisfaction from his products which, I might add, are up to date :) I am confident that his latest membership offering will be to my advantage. Keep up the good work Aaron :) an A+ from me. - Donald Pitts

“I tried for years and spent 10 times the purchase price... Now My first ever paying customer!”

Really happy, this looked hot from the beginning and Aaron and his team have never failed to deliver, I have purchased all of the Super Sales Funnel packages and now I own the most amazing online business, fully set up

and running, the funnels work perfectly, emails are delivering subscribers and my first ever paying customer. I tried for years and spent 10 times the purchase price trying to get close to what I now have. Save yourself years of struggling and wasting your money on possibilities that don't deliver, be set up in your own Top Level Internet Business by tomorrow! Thank You Super Sales Machine Team for delivering the No. 1 internet marketing system online today by far!! - Robert Skilbeck

“I never bought a system like this before... I could not have created It myself... was worth way more then the price I payed”

I want to thank you guys for doing such a wonderful job installing and setting up my system, I was very impressed It met all my expectations and beyond. Im a newbie to Internet marketing and when I first saw the offer I was a little shocked, an offer like this only happens once in a great while and I said to myself "If I cant make money with this I need to get out of the game". I bought the system right away, because I knew I could not have created It myself. It was installed in 72 hrs or less just as you said, and was worth way more then the price I payed. The admin and navigation system Is very easy to use. The training that you provide Is sufficient enough to get you started. And customer service was great. I never bought a system like this before. And I recommend this system to every one thats been trying to make money online. Thank You. - Mary Cooper

“I love selling IM tools online and I especially love these sites. I could not be happier... Thanks guys you're the best”

As internet marketers we are often told to be a product developer and to created a product. I really wanted to start something that I could get my teeth into. I was thrilled to come across this. I love selling IM tools online and I especially love these sites. If you really want to make a consistent Income online, you really must have multiple sites and especially one that allows you to sell something internet marketers need. I went for the 'Licencing Rights, Full Set up For You' package and I could not be happier. Thanks guys you're the best. I look forward to a bright

and prosperous future with you. - Henry Webster

“Super Sales Machine is one of a kind!... They did the hard work and all I did was sit back... **There is no one in the business that does anything like this!**”

The team at Super Sales Machine is one of a kind! They deliver more than they advertise and follow up with perfect customer support. I am very impressed with the level of expertise, patience, concern, care and effort that they show me. I recommend them without reservation! They deliver a "Done for You" product that is not to be outdone. Superior product, superior service and superior support. There is no one in the business that does anything like this. It fits the "newbie" and the experienced Internet marketer. Their effort was a quick, easy and painless solution to having my own product to sell and not worry about the whole process of creating one in the first place? I could not be happier and will continue to purchase and rely on them for future products and a business relationship. They did the hard work and all I did was sit back and benefit from their superior service. Thank you! - Mark Zupo

“I've been hanging around with Aaron since back in 2009!... **I can comfortably place my name beside his** and not feel like I need to recreate the wheel. I can relax a LOT more when I incorporate his stuff.”

I've been hanging around with Aaron since back in 2009! That should tell you something, right there. The fact that he could keep my interest and loyalty for that long is a feat within and of itself. When I saw this package.. well, I just couldn't resist. I am pretty advanced and have my own products on the market, (and selling), already and this package will compliment my offerings quite nicely. I have pretty big plans for this package. The ONLY reason I even think about adding Aaron's stuff to my offerings is because I've never known him to produce anything other than "quality" product. I can comfortably place my name beside his and not feel like I need to recreate the wheel. I can relax a LOT more when I incorporate his stuff. So, if you're on the fence.. get off of it.. get into it... drop the fear and get with it! Half your battle is already won when you use Aaron's products. Peace, Love & Prosperity! -

Frequently Asked Questions

Q. “Can you summarize what I'm getting?”

Sure! There are two main points you need to be aware of. Firstly you're getting licensing rights to Newbie Lessons. You'll receive your own reseller site similar to the official site NewbieLessons.com. This means you can sell it as your own product, collect \$19.95 payments, or \$37 upsell payments and sell as many membership access passes as you want and keep 100% of the profits.

Secondly, you'll get access to the reseller's member area where you can create your own unique Newbie Lessons membership access links. These access links will be embedded with your ClickBank, JVZoo and Zaxaa IDs. This means any extra purchases your customer makes after they've bought from you will be credited to your account. This includes any product we launch to your customers in the future!

Q. “Can you set this up for me?...”

Yes we can for a small additional fee! If you're a complete newbie and struggle with the techie side of things, for a small additional fee we will setup the entire system for you so everything is working correctly. This includes site setup, FTP upload, PayPal payment button creation, reseller link creation, autoresponder list creation, adding 50 emails to your autoresponder account, squeeze page setup and much more. A full break down of everything we do is listed in the order form under Option 2.

Q. “What happens after I purchase?”

After checkout, you'll be redirected to the reseller registration page. From there you'll be asked to create your own unique account so you can log into our system at any time to access your purchases. An email will also be sent to you with your login details. We recommend that you do not close the window during the checkout process. If you have any issues please forward your transaction email receipt to us and we'll provide you with your reseller access link.

Q. “Is this for me?”

If you've visited the official Newbie Lessons site, understand the product, and are convinced that it will sell... then YES this is for you.
